GMR Hyderabad Aviation SEZ Limited Commissions Manufacturing Facility for Multisorb, Filtration Group

Hyderabad, 27th September 2018: GMR Hyderabad Aviation SEZ Limited (GHASL), a 100% subsidiary of GMR Hyderabad International Airport Ltd. (GHIAL) has completed and handed over one of India's largest temperature and humidity controlled facilities for the assembly and packaging of absorbents, to the U.S. based Multisorb, Filtration Group - a world leader in providing oxygen and moisture management solutions.

Spread out in approximately 2 acres of land within GMR Multiproduct SEZ, the facility houses Multisorb's state-of-the-art manufacturing processes in a clean room environment. As with all Multisorb manufacturing sites, this facility is ISO 9001:2015 certified and is held to the same high-quality standards and procedures deployed in the company's Global production facilities.

Commenting on the development, **Mr. Aman Kapoor**, CEO, GMR Airport Land Development said, **"We welcome Multisorb, Filtration Group, the Global market leaders in active packaging solutions at GMR Airport City, Hyderabad. We have readied their state-of-the-art manufacturing facility at GMR Hyderabad Airport SEZ. The SEZ is offering a significant opportunity for economic growth in the State and will contribute to making Airport City a new age destination for businesses"**

About GMR Multiproduct SEZ & Hyderabad Airport City:

GMR Multiproduct SEZ is housed in the GMR Aerospace and Industrial Park that offers 'ready-to-use' industrial infrastructure. It offers the flexibility of choosing land within the Special Economic Zone (SEZ) & Domestic Tariff Area (DTA) for businesses and caters to international and domestic markets.

The proximity to the Hyderabad International Airport offers the SEZ the advantage of good connectivity across the Globe while offering a host of benefits to the customers such as greater security and reliable supply of utilities like power and water. The tenants also enjoy value additions of the Air Cargo Terminal, availability of a five star Hotel, reliable and affordable transport and emergency services among others.

Currently, GMR Aerospace and Industrial Park is home to clients like - CFM Aircraft Engine Support South Asia Private Limited (CFMAESSA), United Technologies Corporation India Private Limited (UTC IPL), Turbo Aviation, GMR Aero Technic, Global AeroTech India Pvt. Ltd., SAS Applied Research and Lab Materials Pvt. Ltd., SAAZ Imaging Systems Pvt. Ltd., Casper & Cronus Pharma Specialities India Pvt. Ltd, FSTC (Flight Simulation Technique Centre) Pvt. Ltd. among others.

GMR Hyderabad Airport City is envisaged as an anchor-led theme based development having activity centers like Business Park, Retail Park, Health Port, Education Port, Logistics Park and a mixed use commercial zone dedicated for the Exhibition and Convention Center Project. Hyderabad Airport City is in the process of launching a Grade A business park of 1mn sft spread over 30 acres. As a first step in the creation of this modern Business Park we are coming-up with a Grade A Office space of about 8 Lakh sft which will be ready for occupation by end of 2019. This new office space is in addition to the existing multi-tenanted office building of 2 Lakh sft which is completely occupied. Hyderabad Airport City Office offering is in response to the tremendous demand for quality Office in Hyderabad City and offers competitive rents at the Airport as compared to the City.

About GHIAL:

GMR Hyderabad International Airport Limited (GHIAL) is a joint venture company promoted by the GMR Group (63%) in partnership with Airports Authority of India (13%), Government of Telangana (13%) and Malaysia Airports Holdings Berhad (11%). The Company was incorporated to design, finance, build, operate and maintain a world class Greenfield airport at Shamshabad, Hyderabad. Hyderabad airport was commissioned in a record time of 31 months in March 2008, with an initial capacity of 12 million passengers per annum (MPPA) and 1,50,000 MT of cargo handling capacity per annum. The Project has the flexibility to increase capacity to accommodate over 40 MPPA and shall be developed in a phased manner.
